DIG FARMER'S DAY OVER

FINE COMMUNITY DEMONSTRATION MARKS EVENT.

More Autos Parked in Gettysburg Than Ever Before—Home Autos With Home People to Enjoy Day.

Farmers' Day, Oct. 20, will go on record as the largest day of the kind from the number of automobiles in town than any previous occasion. They were Adams county cars filled with Adams county people to enjoy the day, which was ideal as far as weather could make it. The main streets were lined on either side for two and three blocks and side streets were parked in like fashion. They came and departed without an accident. There must have been several miles of cars standing as they did one against the other and there must have been many more than a thousand cars in town, in fact fifteen hundred would be a conservative estimate and these cars alone must have carried seven thousand souls to and from Gettysburg, and a conservative estimate would be that ten thousand people thronged the streets at the busiest time of the day. Every one seemed pleased with the day, declaring the parade finer than ever. The display of fruit, specially apples, was not as large as on previous Farmers Days yet the displays were fine. The exhibit of hogs on West Middle street, at Court House, was fine and the people circulated around the exhibits and packed the stores.

There was plenty of music, the Citizens' Band of Gettysburg, the Gettysburg College Band, the Littlestown Band, the Arendtsville Band, Biglerville Band, and Bendersville Band. The bands had places in the parade, also the entire unit of R. O. T. C. of Gettysburg College, trimmed wagons and autos, also displays of mule teams, driving horses, pony teams, and the many other details of parade. It was about six blocks long. Before and after the parade the band played and things went merrily.

The Red Cross and the State Department of Health held a baby clinic in room at the National Garage and were kept busy during the day. 100 babies were weighed at the baby clinic and 120 of them received rattles with Red Cross marker. 213 school children were weighed and 101 were found under weight. An interesting incident was three sets of twins and they were photographed. One child came with the mother, grandmother and great-grandmother. AWARDS OF PRIZES FOR HOGS. The First National Bank of Gettysburg gave \$60 in cash prizes for pig exhibits.

TEACHER'S INSTITUTE 1921

WILL BE CONDUCTED ALONG NEW LINES THIS YEAR.

Teachers Will Be Divided into Primary, Grammar, Rural and High School Groups.

Teachers' Institute Nov. 14 to 18, 1921, is going to be something new, with the purpose in view of being something more efficient. The problems confronting the 225 teachers are not all alike and the effort will be to bring home to the various groups of teachers information of special benefit to each one. The teachers will likely be divided into four sections, representing the primary work, the Grammar School or graded work, the Rural Teachers' work and the High School section. The morning of Institute will be devoted to these four sections by specialists and the afternoon sessions will be held as one institute.

This breaking up of the institute into sections will require more instructors. County Superintendent H. Milton Roth has engaged a large corps of instructors already and will likely add several additional ones. Those engaged so far are:

Dr. Reuben Post Halleen, of Louisville Ky.
Dr. Geo. H. Tapy, Crawfordville, Ind.

Dr. J. Geo. Brecht, of Harrisburg, Pa.
Dr. Albert L. Roland, of Harrisburg, Pa.

Dr. James Herbert Kelley, of Harrisburg, Pa.
Miss Mary Rachel Harris, of Shippensburg, Pa.

Miss Hanna Kieffer, of Shippensburg, Pa.

VOICE, VIOLIN AND PIANO.

In Concert With New Edison Phonograph.

Nace's Music Store, Inc., with stores at Gettysburg, Hanover, Westminster, Hampstead and Manchester, have been presenting highly enjoyable musical concerts in the towns mentioned in which surprising recreations are reproduced with the new Edison phonograph, assisted by Miss Leeta Corder, a gifted soprano, Robert Velton, violinist, and Leslie Loth, pianist.

The concert was given in Gettysburg on last Friday evening in Xavier Hall and was attended by an audience of four hundred who marveled at the artistic recitals. On the stage were two Diamond Disc Phonographs, the most recent invention of that wizard of all scientists, Thomas A. Edison.

Miss Corder arrived late but no time was lost however as she accompanied her own voice immediately upon reaching the front entrance and marched down the aisle upon the stage singing "If You Care" and took her place beside the New Edison. The voice sounded very human but Miss Corder's lips were closed. The voice, despite its humaness, came from the cabinet beside her. Then suddenly one saw Miss Corder's lips begin to move but it was impossible to detect any change in the quality of her voice pouring through the auditorium. One caught only a slight increase in the volume of voice.

While Miss Corder was singing "Scenes That Are Brightest" the lights were turned out for a few moments. Miss Corder left the stage and when the lights were again turned on the audience was surprised for Miss Corder was not there and the New Edison was reproducing her voice perfectly.

Mr. Robert Velton, a noted violinist played with the Edison recreation "Meditation." The eyes of the audience saw the bow sweep the strings and drop to the performer's side but their ears could distinguish no difference in the continuous flood of melody.

The pianist, Mr. Leslie Loth demonstrated to the audience that although it is difficult to reproduce piano music upon a record, the audience knew from his rendition of the "Second Mazurka" and "Sons Bois" that it is done perfectly on the New Edison Re-creations.

The numbers were most enthusiastically received and a number of encores were given. The number most pleasing to the audience was "Underneath Hawaiian Skies." In this Miss Corder sang a second soprano to the soprano given by the re-creation of her voice. This was unique for the reason that under no other condition could any person sing a duet with themselves.

No Other Phonograph
Can Do It

No other phonograph even dares the test which the New Edison underwent last Tuesday, before a large audience in Xavier Hall, Gettysburg, Pa.

That fact is something for you to think about.

The test of comparison with living artists is the only phonograph test which means anything. It is the only way in which a phonograph can irrefutably prove its realism. It is the most drastic of all phonograph tests. To sustain it, requires absolutely perfect realism,—nothing less.

Last Tuesday, the New Edi-

son stood by Leeta Corder's side in Xavier Hall. If you were there, you heard the living voice and the RE-CREATED voice brought into direct comparison. You know that there was no difference between the two voices.

By this wonderful performance, the New Edison has placed itself apart from all other phonographs and talking machines. It alone has sustained this drastic test. It alone has proved, concretely and conclusively, that it gives you the living performances of great artists.

The NEW EDISON

"The Phonograph With a Soul"

Any Official Laboratory Model you buy in our store will positively sustain the test made in Xavier Hall. We will give you our guarantee to that effect.

Come in and hear this instrument in

some further tests of its realism. Learn that you can have an Official Laboratory Model of your own, on a very small cash outlay. We will make a gentleman's agreement with any music lover.
